

# MID-ATLANTIC REGIONAL D-STAR NET

Version 1.4 (April 10, 2009)

Attention all Mid-Atlantic Dstar stations -- This is       CALLSIGN      , my name is YOUR NAME and I'm located in YOUR CITY/TOWNSHIP, working through the REPEATER CALLSIGN on Port A B or C located in REPEATER CITY/TOWNSHIP and I'll be the Net Control for tonight's Mid-Atlantic Regional D-STAR Net.

The purpose of this is net to promote D-STAR use in and around the Mid Atlantic Region, provide experience for operators to participate in net operation, and exchange information and answer questions for D-STAR users. The usual participating D-STAR repeaters are:

## Connected Repeaters

W3OI-C Allentown, PA <input type="checkbox"/>	NJ2DG-C Martinsville, NJ <input type="checkbox"/>	KC2TGB-B Atlantic City, NJ <input type="checkbox"/>
W3EOC-C Chester County, PA <input type="checkbox"/>	NJ2MC-C Northern NJ <input type="checkbox"/>	<input type="checkbox"/>
K3PDR-B Philadelphia, PA <input type="checkbox"/>	W2DGL-C Cedar Grove, NJ <input type="checkbox"/>	<input type="checkbox"/>

All repeaters on the net are linked through **Reflector 002 port A**.

All stations using their radios to check in should make sure that you have **CQCQCQ in the UR or URcall** field. Additionally the **RPT1 field needs to have your local repeater callsign along with its port letter in the eighth position**, and the **RPT2 field, should have your local repeater call sign followed by a "G" (Golf) in the eight position**.

Dongle users wishing to check into the net should check in via Reflector 2 port A rather than direct through your local repeaters in order to conserve bandwidth

.....  
This will be a directed net and our format will be as follows:

We will take check-ins from each connected by each repeater one at a time. When your local repeater is called we will be taking checkins by voice and not the "quick key" format used on some D-Star nets. I will collect call signs and then call back each station individually for any comments or questions for the group.

Since we are linked via the reflectors, please allow a few seconds between transmissions, as there is some delay. **Also, if you are using GPS or a Chat program, please turn them off during the net.**

This is the Mid Atlantic Dstar net on Reflector 2 port A - do we have any announcements for the Net? -----Please call now.

---

## **Check-ins**

A) Before we take checkins by repeater, do we have any stations that need to check in now and leave the net early?

B) Let's begin check-ins by repeater.

- *Call for checkins one repeater at a time –*
- Now check-ins from DVDongle users on each repeater.

(After cycling through the repeaters call for additional checkins from any connected repeater, anywhere)

## **Net Closeout**

A few quick reminders:

- .....(as appropriate)

Do we have any final comments from any station or Dongle or any repeater?

This net meets every Tuesday of each month at 7:00 PM local time, and we hope you will join us again next week on these repeaters for the Mid-Atlantic Regional D-STAR net. Thanks to all the local D-STAR repeater groups for the use of each of these repeaters. This is CALLSIGN returning the repeaters to normal use.

All stations please stand by for 2 minutes to allow systems to unlink from the reflector. Thank You.
